

EV Rescue Kit - Volt Safety

Volt's EV Rescue Kits are a must-have kit for people working around EV vehicles and are designed to be used by the rescuer/safety observer in the event of an electrocution. It enables the rescuer/safety observer to safely perform rescue from a EV vehicle without being electrocuted, and includes contents to provide relief for the victim.

NB The insulated gloves supplied in this kit are required to come in size 11 to ensure the gloves can fit different rescuers/safety observers. The gloves are stamped 'RESCUE USE ONLY' to state that they should *not* be used as everyday working gloves, as the gloves need to be suitable for purpose in the event that a rescue is required.
