

VAS0108 & VAS0110 1000V Insulated Adjustable Spanner

Major Techs VAS0108 and VAS0110 are two exceptional adjustable insulated spanners designed for optimal performance in electrical applications. The VAS0108 is a 30mm 1000V Insulated Adjustable Spanner, meticulously crafted from chrome vanadium steel. Fully insulated for use on live conductors up to 1000V AC, it conforms to IEC 60900 standards and has been individually tested to 10,000V. With a convenient 200mm length and the ability to adjust to various bolt and nut head sizes up to 30mm, it's a versatile tool suitable for confined spaces or compact tool kits. Similarly, the VAS0110, a 36mm 1000V Insulated Adjustable Spanner, offers the same high-quality features with a longer 250mm length and a maximum jaw size of 36mm. Both spanners provide a safe and efficient solution for electricians and technicians working with live conductors, ensuring reliable performance and adherence to safety standards in every application.

Features

- Chrome vanadium steel
- Individually tested to 10 000V
- High quality spanner that adjusts to suit various sizes of bolt and nut heads
- Useful when only a limited number of tools can be carried or kept in a tool kit
- Conforms to EN 60900 standards

Product Code	mm	Jaw
VAS0110	250	36
VAS0108	200	30
